

GRASSROOTS TRUST RESCUE HELICOPTER
KIDS CREW
ACTIVITY BOOKLET

SAVING LIVES TOGETHER

Your rescue helicopter undertakes hundreds of life saving missions each year

“Today we are going to take you through some of the important information you need to be a part of our crew and to help save lives in your community!”

TODAY YOUR **LIFE-SAVING CREW** ON DUTY ARE:

GRAEME
BASE MANAGER

LANCE
PILOT

LEIGH
CREWMAN

RENE
CRITICAL CARE
FLIGHT PARAMEDIC

DISPATCH

PROCESS

RENE

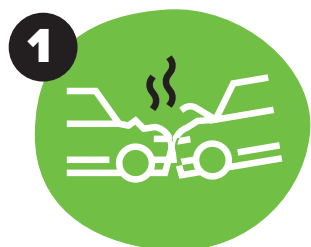

CRITICAL CARE FLIGHT PARAMEDIC

“The speed of the Grassroots Trust Rescue Helicopter ensures that we reach the patient as soon as possible. My job is to administer life-saving medical treatment to patients on-site and while en route to the hospital.”

111 DISPATCH PROCESS

Did you know the Grassroots Trust Rescue Helicopter can only be tasked to missions through the 111 Communication Centre.

Here is an example of how we would be dispatched to a motor vehicle accident!

1
Motor vehicle
ACCIDENT

2
SOMEONE AT THE SCENE
DIALS 111
and describes the situation to the
Communications Centre.

3
Communication Centre gathers
information to determine which emergency
services are required.
**RESCUE HELICOPTER IS
DISPATCHED IF NEEDED.**

6
FLYING AT SPEEDS OF
220 km
per hour
the rescue helicopter lands at the
hospital where doctors are waiting
to provide further treatment.

5
We bring highly skilled
Critical Care Flight Paramedics & the
LIFE-SAVING
equipment directly to the patient.
TREATMENT BEGINS IMMEDIATELY.

4
On-duty crew are paged and are
**AIRBORNE WITHIN
10 MINUTES**
during the day and
20 minutes at night.

ACTIVITY 1

Scenario: You are hiking on a trail in the Ruahine Forest Park with your friend and their dad. Half way through the hike, your friends' dad trips over, hits his head on a rock, and is unconscious. It is just you and your friend, there is no one else around.

What should you do next?

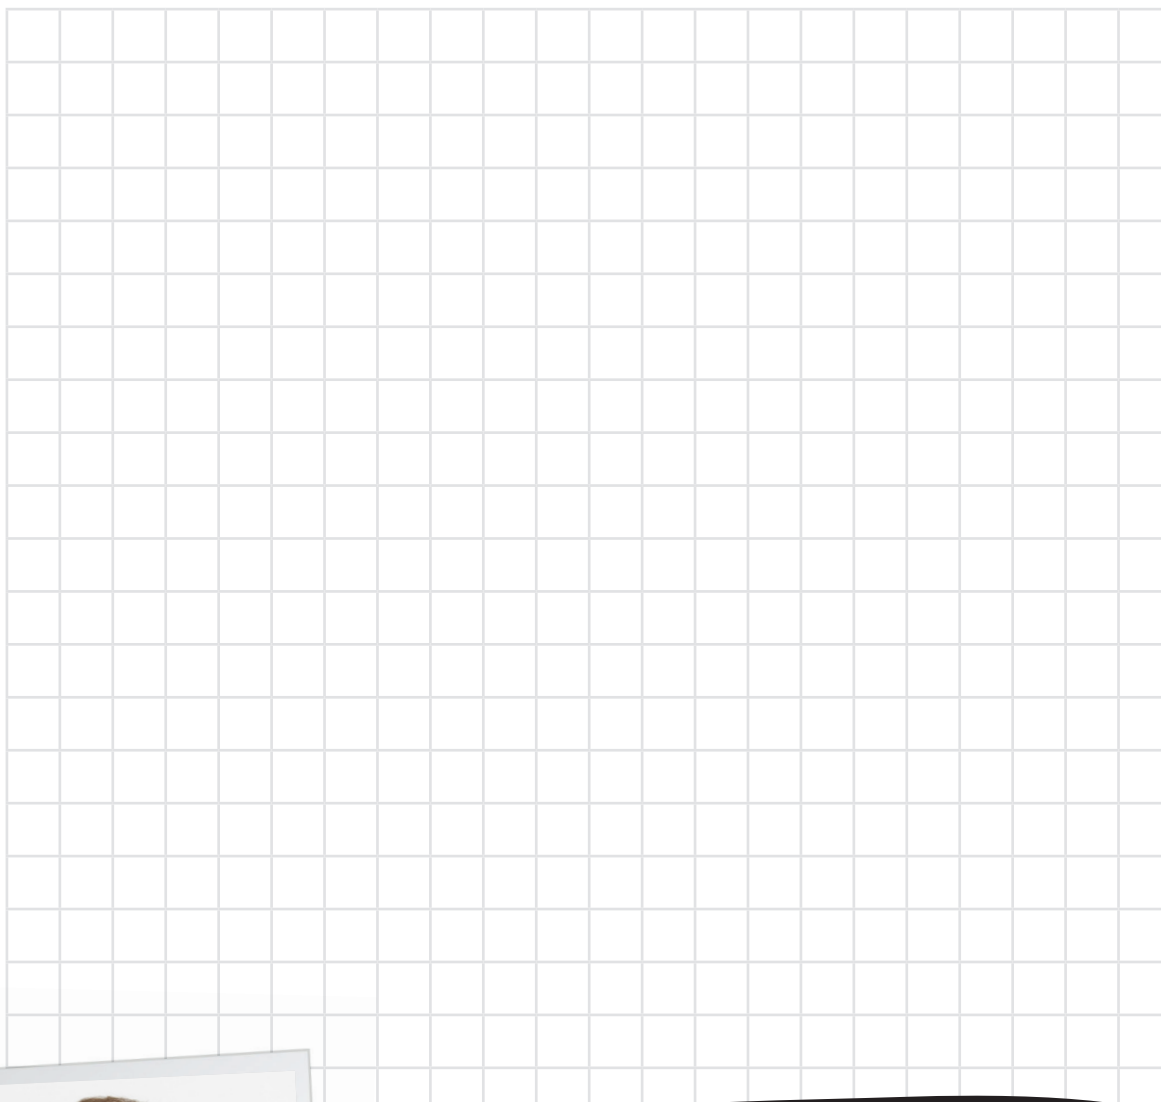

Can you put these statements in the correct order from 1 - 9?

	Explain what has happened with as much detail as possible.
	Answer, slowly but clearly, 'Ambulance please.'
	The operator will ask 'What has happened?'
	Find a phone and dial 111.
	Do not put down the phone until the operator tells you to.
	Answer slowly and clearly 'My name is -----, I am ----- years old.'
	The operator will answer and ask, 'Which service do you need – Police, Fire or Ambulance?'
	The operator will ask, 'What is your name?'
	Tell the operator the address. If you're not at home, describe where you are. Look for street names and landmarks.

ACTIVITY 2

Landing Map Help us land the rescue helicopter!

Use the grid below to draw a map of your school field or local sports field! Mark an 'H' where you think the best area for the Grassroots Trust Rescue Helicopter to land would be – remember, the bigger the area the better!

“As a pilot for the Grassroots Trust Rescue Helicopter, I need to make sure that the helicopter can land safely. We need an area about the size of a tennis court, but can land on school grounds, bridges, roads, or farms!”

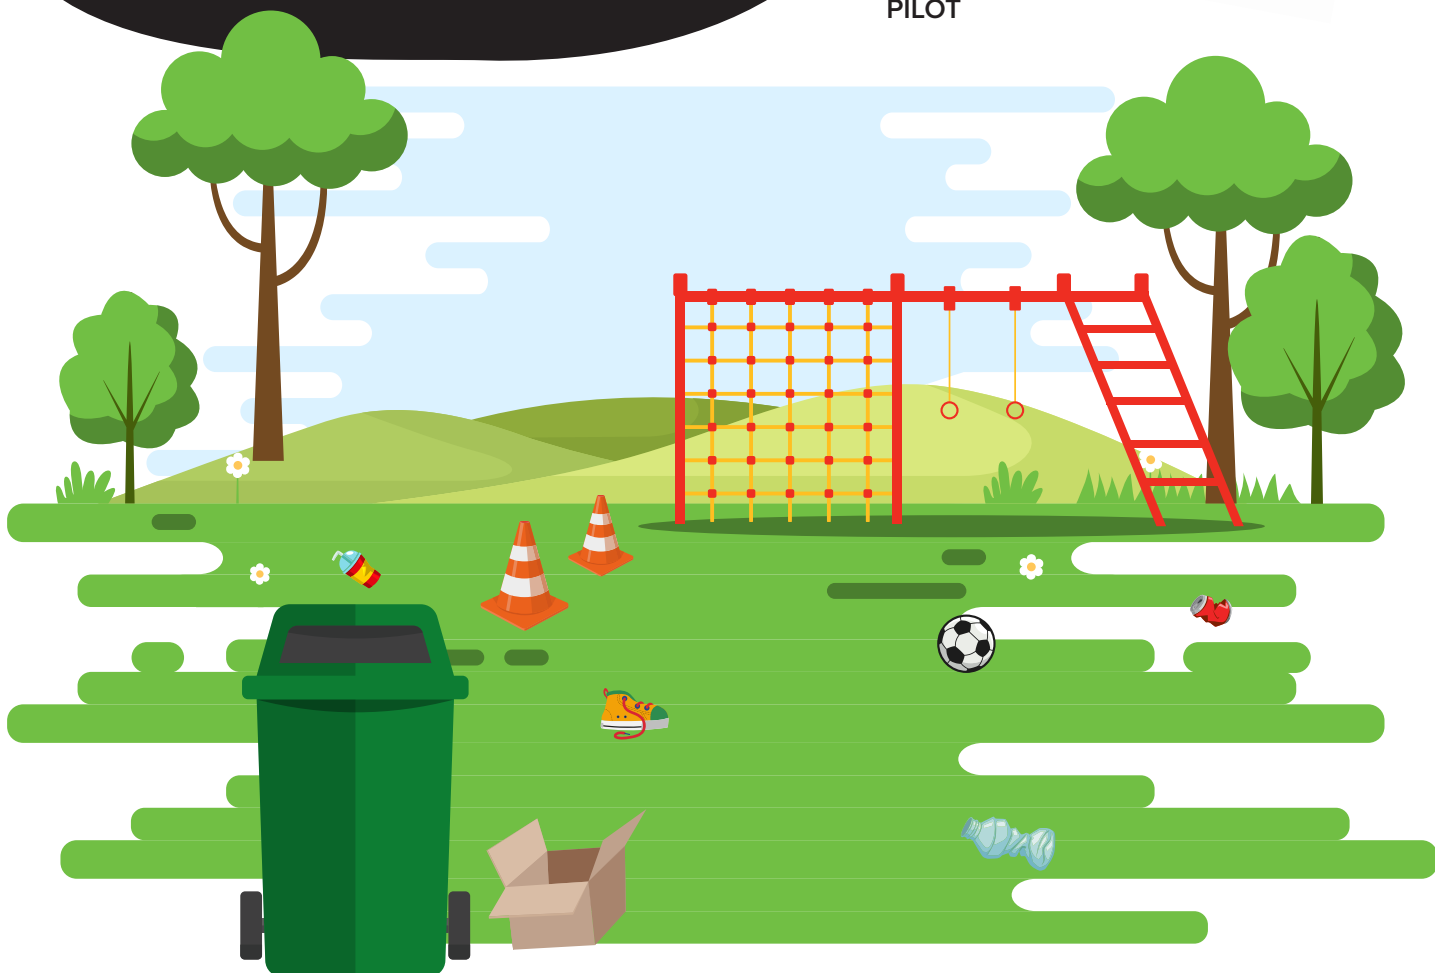

LANCE PILOT

ACTIVITY 3

Pilots need to be aware of hazards when landing a helicopter, as foreign object debris (also known as FOD), can damage our engine or injure people standing close by. FOD can be anything light that would move from strong wind caused by the helicopter dropping down to land or when it's about to fly away. Some examples would be rubbish or shoes left on the field.

LANCE
PILOT

**Can you circle all the FOD
on this field?**

FOD - Foreign Object Debris

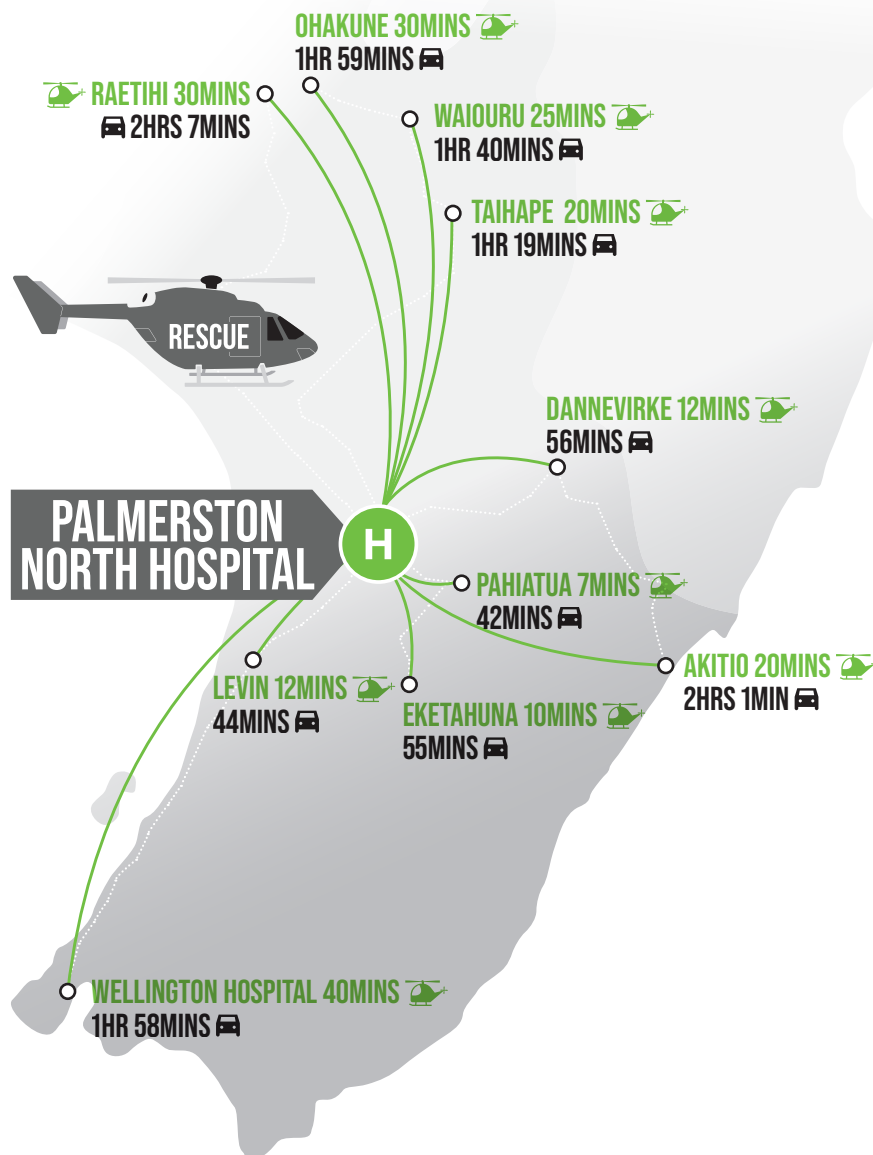

LOCATIONS

Your rescue helicopter goes where we are needed

LEIGH
CREWMAN

“When the Grassroots Trust Rescue Helicopter is tasked to a mission it’s because your rescue helicopter is the fastest, the best, and in many cases, the only option for patients. We can get to places other emergency services aren’t able to, so everyone in New Zealand is covered by a rescue helicopter!”

ACTIVITY 4

FOR PRIMARY SCHOOL USE

Rescue helicopters cost a lot to operate. Did you know each rescue mission, on average, costs just over \$9,500 per mission - including fuel, crew and medical equipment.

- 1** On average, the rescue helicopter uses \$100 worth of fuel every minute. Using the previous page as a reference, how much would it cost to travel from the Grassroots Trust Rescue Helicopter hangar to an accident in:

Levin

Taihape

Dannevirke

Raetihi

- 2** 4L of fuel is used every minute.
How much fuel would we need to rescue...

- Lou, after a motor vehicle accident in Eketahuna?

.....

- Baby Lacey for urgent medical care from her home in Waioruru?

.....

- 12 year old Hayley after a skiing accident in Ohakune?

.....

ACTIVITY 4

FOR INTERMEDIATE SCHOOL USE

Rescue helicopters cost a lot to operate. Did you know each rescue mission, on average, costs just over \$9,500 per mission - including fuel, crew and medical equipment.

- 1** On average, the rescue helicopter uses \$100 worth of fuel every minute. Using the previous page as a reference, how much would it cost to travel from the Grassroots Trust Rescue Helicopter hangar to an accident in:

Levin

Taihape

Dannevirke

Raetihi

- 2** 3.6L of fuel is used every minute.
How much fuel would we need to rescue...

- Lou, after a motor vehicle accident in Eketahuna?

.....

- Baby Lacey for urgent medical care from her home in Waioruru?

.....

- 12 year old Hayley after a skiing accident in Ohakune?

.....

ACTIVITY 5

Can you fill out the points on this compass?

1. **S**-South 2. **N**-North 3. **E**-East 4. **W**-West 5. **SE**-South East
6. **SW**-South West 7. **NE**-North East 8. **NW**-North West

ACTIVITY 6

FOR PRIMARY SCHOOL USE

Exercise your brain with these word puzzles!

Care	Pilot	Winch
Accident	Crew	Fundraise
Charity	Rescue	Help
Flying	Hospital	Hangar

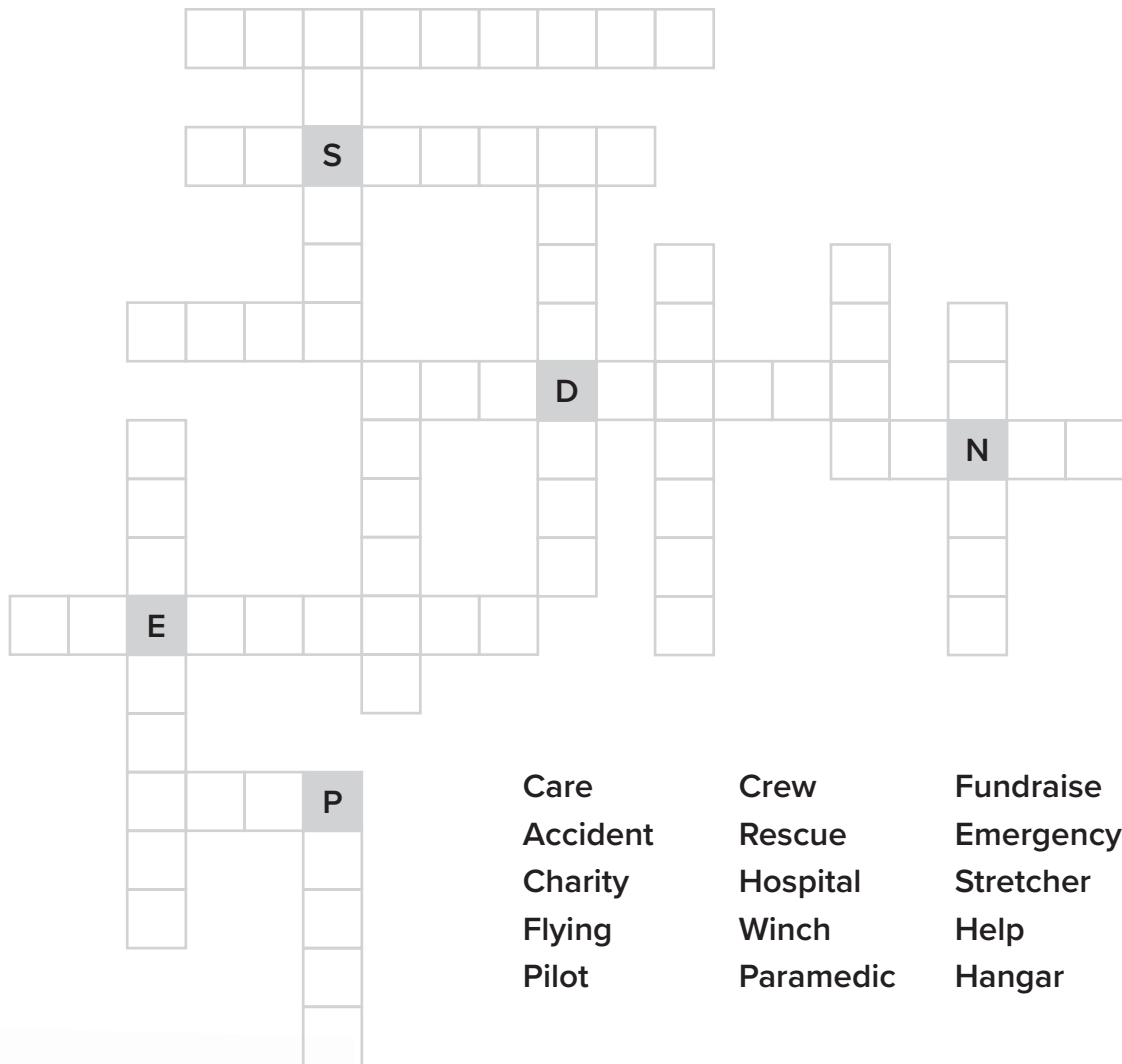

“When we aren’t out on a mission, the crew of the Grassroots Trust Rescue Helicopter are training at the hangar. It’s important we keep our brains active and fun games are a great way to do this.”

GRAEME BASE MANAGER

ACTIVITY 8

Cost of equipment

What's onboard a rescue helicopter?
Can you guess how much each item costs?
Match the item to its cost.

“The Grassroots Trust Rescue Helicopter carries a lot of life-saving equipment! Before and after each mission we check all the equipment on board the helicopter to make sure everything is ready for the next mission.”

RENE

CRITICAL CARE FLIGHT PARAMEDIC

NIGHT VISION GOGGLES

\$700

JACKETS

\$3,500

A NEW BK-117 HELICOPTER

\$44,000

PILOT AND CREW HELMETS

\$15 MILLION

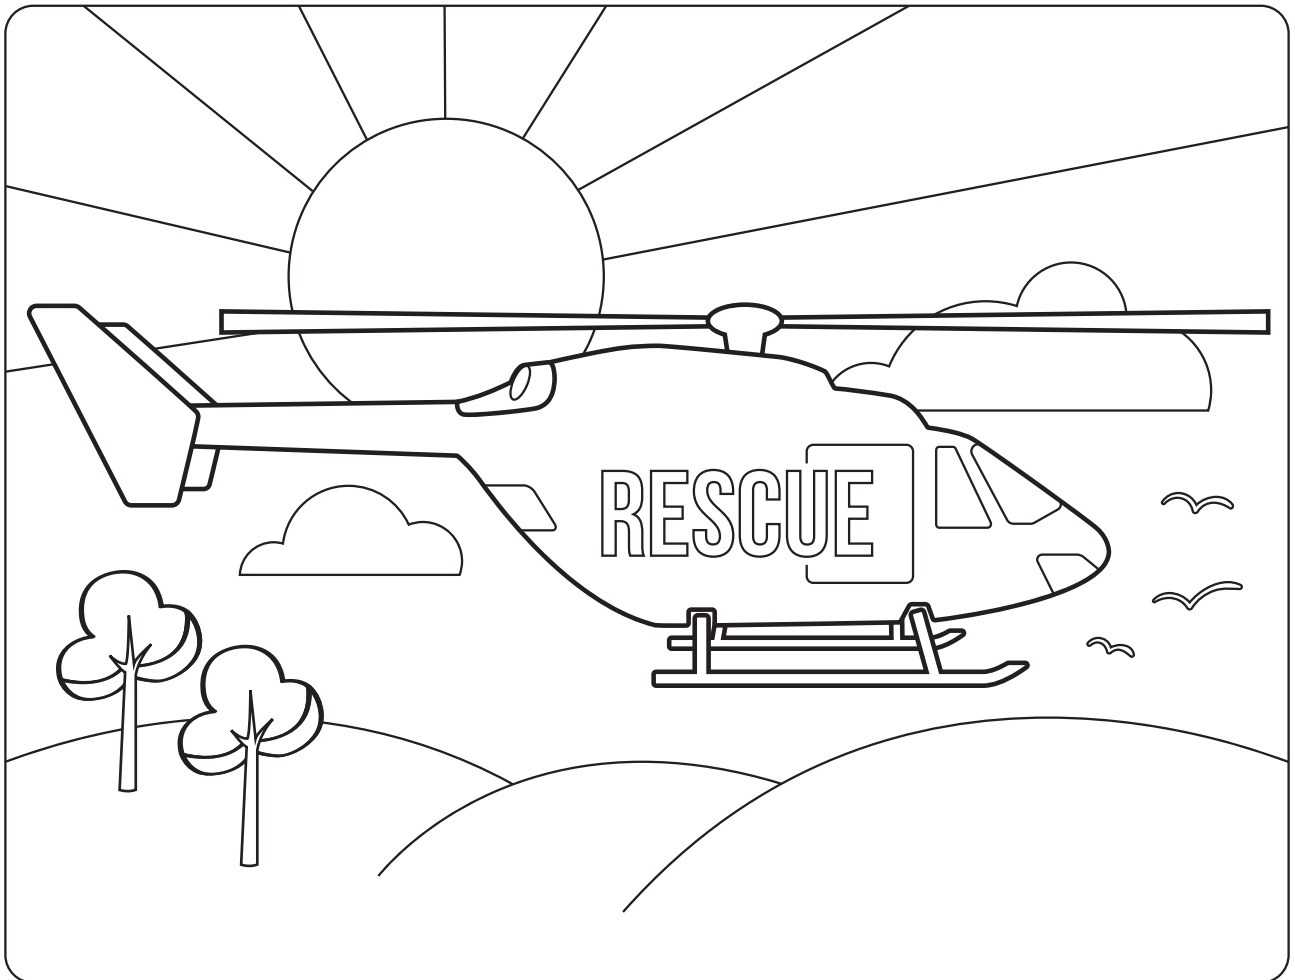

DEFIBRILLATOR

\$18,000

ACTIVITY 9

Design your own rescue helicopter!

“Next time you see the Grassroots Trust Rescue Helicopter flying overhead, make sure to give us a wave!”

GRAEME BASE MANAGER

THANK YOU!

Thank you for joining us today. We've loved teaching you about the important work your rescue helicopter does in your community.

If you would like to support your rescue helicopter, there are lots of ways to do this

- > Talk to your teacher or parents about how you can help us save lives in your community.
- > Here are some great fundraising ideas

- > Check out our website for more ideas: www.give.rescue.org.nz/gtrh-school-fundraising
- > Fundraising guide: www.give.rescue.org.nz/gtrh-fundraising-guide
- > Website: www.rescue.org.nz
